Water Source Maze

Most of San Diego's water is imported from far away.
Help get the water from the mountains to your home.

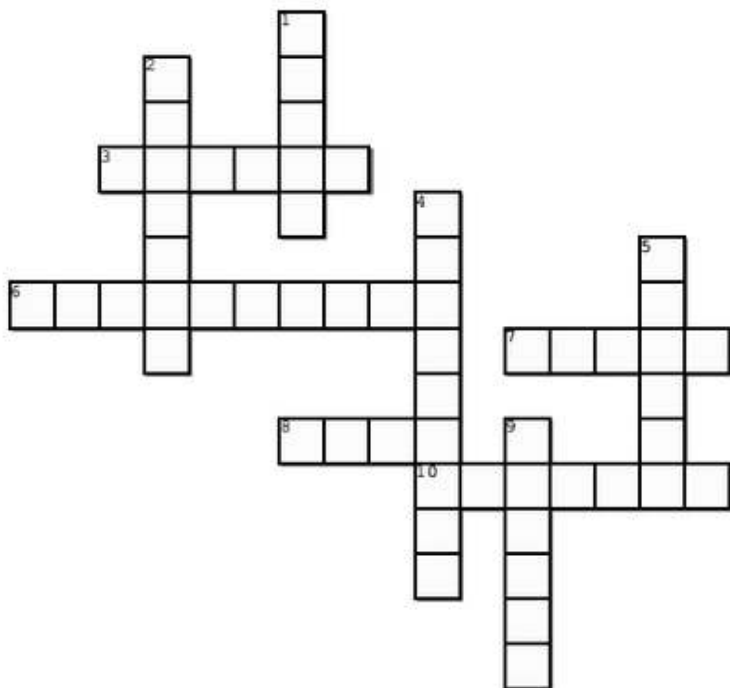

85% of San Diego's water is imported from the Colorado River and the San Joaquin-Sacramento Delta. The other 15% is from local sources of rain and rivers.

How can you save water?

Write down ways you can help the environment.

Water Conservation Crossword

Across

- 3. Only flush this appliance when needed. Do not use it as a wastebasket.
- 6. Don't rinse your dishes before putting them in this kitchen appliance.
