

The Seaside Soirée is Back!

Do you represent a company exploring ways to make a powerful and unambiguous statement about your commitment to sustainability? We are thrilled to announce the return of our highly-anticipated annual celebration of clean water on the evening of **October 4, 2023** at **Tom Ham's Lighthouse**, and we invite you to partner with us as we gather to raise a glass to the past year and the future ahead. We are bringing together environmental advocates, community leaders, policy makers, high-level supporters, and the San Diego Coastkeeper Board of Directors and staff to not only celebrate our clean water victories, but dive deep into San Diego's stormwater infrastructure needs. Your generous patronage as an event sponsor will demonstrate your leadership and commitment to environmental stewardship and the health of our communities and watersheds - and your support will be returned with the recognition you deserve.
